

Module 7, Lesson 2 Tool:
Triggers and Controls

The best way to avoid overeating or making poor food choices is to recognize what triggers you to engage in this behavior. The best way to overcome these triggers is to become aware of them and have a plan to kick them in the butt. Let's do this!

| Trigger | Food Control | Non Food Control |
|----------------|---------------------|-------------------------|
| | | |
| | | |
| | | |
| | | |
